BLM

Site-specific Environmental Assessment for Infrastructure Components

The Bureau of Land Management (BLM) Rawlins Field Office is accepting scoping comments for a site-specific environmental assessment for infrastructure components for the Chokecherry and Sierra Madre Wind Energy Project (CCSM). The CCSM Environmental Impact Statement and Record of Decision amended the Rawlins Resource Management Plan to allow for wind development, but did not identify individual turbine or infrastructure component locations. Subsequent tiered environmental assessments (EAs) are needed to analyze site-specific issues. The first to be analyzed will be an infrastructure component EA which includes the Haul Road and Facilities for Phase I, West Sinclair Rail Facility, and Road Rock Quarry. Please complete and submit this comment form at the public scoping meetings. You may also return this form by mail to the address on the reverse side. Fold this form on the lines with the return address showing, tape it closed, affix a stamp, and mail. You may attach additional pages. Comments may also be submitted via facsimile: 307-328-4224, or by e-mail: blm_wy_pcw_windfarm@blm.gov. Please include "Infrastructure Scoping Comment" in the subject line. Your comment must be received by Oct. 9 to be considered in the EA. For your comments to be the most effective, the BLM suggests the following guidelines:

- Review the BLM website and participate in a scoping meeting to become familiar with the project;
- Learn about the CCSM Project and environmental assessment process to determine when the BLM will request public input;
- Submit your comments within the timeframes announced.

If you would like to be on our mailing list, but have no comments or questions, please complete the contact information below.

Please provide your contact information. If you would like to be on the mailing list, please check the box on the reverse side and submit this form.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
